

AMRISH KUMAR

FULL-STACK SOFTWARE DEVELOPER

+91-8809937782 amrishkumar0020@gmail.com
linkedin.com/in/amrish-kumar-33210a288 github.com/akamrish

Summary

Aspiring Full-Stack Software Developer with hands-on experience in Python, JavaScript, SQL, HTML, CSS, and React.js. Skilled in developing responsive web applications, building backend APIs, working with databases, and applying data analysis techniques to solve real-world problems. Passionate about full-stack development, software engineering, and building practical applications using modern technologies.

Experience

Coding Blocks June 2026 – Present

Summer Internship Program (SIP) Intern Remote

- Selected for a 6-week Summer Internship Program at Coding Blocks focused on practical exposure and hands-on technical learning.
- Gaining practical experience through industry-oriented projects and structured software development training.
- Strengthening skills in Python, SQL, JavaScript, React.js, HTML, and CSS through hands-on implementation.
- Applying programming, problem-solving, and software development concepts to build practical applications.

Technical Skills

- Programming Languages:** Python, JavaScript, SQL
- Frontend Development:** HTML5, CSS3, JavaScript, React.js
- Backend Development:** Python, FastAPI, REST APIs
- Databases:** MySQL, MongoDB
- Data Analysis:** Pandas, NumPy, Excel, Exploratory Data Analysis (EDA), Data Cleaning
- Tools:** Git, GitHub, Jupyter Notebook, VS Code
- Concepts:** Object-Oriented Programming, Data Structures, Problem Solving, Responsive Web Design

Projects

Expense Tracker with AI Insights 2026

- Developed a full-stack personal finance application using React.js, Python, FastAPI, and MongoDB.
- Built responsive frontend interfaces for tracking expenses, viewing spending categories, and analyzing financial data.
- Developed backend REST APIs using FastAPI for expense management and data processing.
- Implemented OCR-based receipt scanning to automate expense entry and reduce manual data input.
- Built machine learning-based transaction categorization and predictive spending insights.

Student Performance Analysis 2026

- Analyzed student performance data using Python, Pandas, and NumPy to identify academic trends and patterns.
- Cleaned and preprocessed raw datasets by handling missing values, inconsistencies, and duplicate records.
- Performed exploratory data analysis to study relationships between student performance and various factors.
- Created visualizations and generated meaningful insights to understand student performance trends.

Achievements & Certifications

- Finalist** – Smart India Hackathon, 2024
- Data Analytics Bootcamp** – Python, Power BI, SQL, 2025
- Co-Author** – “The Culinary Legacy of Ancient Bihar”, 2025

Education

B.Tech	2023 – 2027
Vivekananda Global University	CGPA: 7.7
Senior Secondary (12th)	2022
SKK College, Dhanbad, Bhagalpur	Percentage: 60.00%
Secondary (10th)	2020
RSH High School, Baladda	Percentage: 77.80%
